Prague, Czech Republic | +420 773 198 714 | anshagarova@gmail.com | [LinkedIn](#)

Game Design Intern with hands-on experience in game development and QA workflows.

Work Experience

TypeSoft | QA Specialist | 02.2024–Present

- Performing in-depth manual testing of complex applications to ensure functional accuracy, requirement compliance, and a consistent user experience across mobile, desktop, and web platforms.
- Conducting API testing and developing integration tests to verify data flow and ensure reliable communication between backend services.
- Logging clear, actionable bug reports, maintaining structured feature documentation, and designing comprehensive test cases to support development and QA processes.
- Working closely with developers to provide timely feedback, accelerate issue resolution, and enhance product quality.
- Verifying third-party integrations with external SaaS tools, including payment gateways and AI-powered features.
- Participating in defining test plans and prioritizing testing efforts based on risk and business impact.
- Proactively identifying usability and accessibility issues, delivering improvement suggestions to optimize user experience and align with best practices.

Education

Film and TV School, Academy of Performing Arts, Prague | 09.2025–Present

- Master's Degree in Game Design

The program combines practical game development with game theory, history, and critical analysis. Through hands-on projects and prototypes, I developed skills across game design, level design, narrative design, interactive media, and game

development workflows, with experience working across different aspects of the game development process.

Czechitas, Brno

- C# Programming | 01.2024–06.2024

Gained a solid foundation in programming principles applicable across various programming languages, focusing on object-oriented programming. Learned to handle text, dates, times, file operations, and exceptions in C#, along with LINQ usage for data querying and manipulation.

- Digital Academy: Software Testing | 09.2023–12.2023

Completed a 300-hour course focused on software testing methodologies and tools. Worked on a real project and tested multiple web applications during several Agile sprints and a 12-hour hackathon.

Game Dev Hub, Online | 02.2023–05.2023

- Game Design Course

Gained game design and development skills, with a focus on game mechanics, testing and balancing, interactive storytelling, player psychology, level design, game development life cycle, iterative development, and UX/UI principles.

Faculty of Arts, Masaryk University, Brno | 09.2019–09.2022

- Bachelor's Degree in Theory and History of Film and Audiovisual Culture

Skills

- Game Engines: Unity, Godot, LÖVE
- Programming & Scripting: C#, Dart, Lua
- Version Control Systems: Git
- Art & Design Software: Figma, Blender, Adobe Illustrator
- Project & Test Management Tools: Jira, Zephyr Scale, Notion
- Database Management: SQL, PostgreSQL, Firebase
- Test Automation: Flutter Integration Testing, Patrol, Postman, Selenium WebDriver
- Languages: Czech (Fluent), English (Upper Intermediate)
